

# Sports Injuries

Many professional athletic and sport organizations recognize the value of chiropractic care in correcting and preventing injuries.

A Sports chiropractor is educated in the treatment of conditions related to body mechanics, diagnosis, emergency procedures, rehabilitation, injury prevention, physical therapy, nutrition, joint supports, taping, exercise prescription, and training.

Whether you are a member of a team or participate in an individual sport, whether you are a professional athlete or a "weekend warrior" you, too, can benefit from sports chiropractic care.

For more information about Sports Chiropractic please contact us to schedule a *FREE* exam & consultation with a Certified Chiropractic Sports Physician (CCSP).
